

```
Name? parratt.5.c
One moment, please...
compile (YES)? compile (YES)?
Compiling...
In file included from sub_func1.c:3,
    from parratt.5.c:18:
complex.c:9: warning: conflicting types for built-in function 'cexp'
complex.c:11: warning: conflicting types for built-in function 'csqrt'
/usr/bin/ld: skipping incompatible /usr/lib/gcc/x86_64-redhat-linux/3.4.6/../../../../
../../../../lib/libncurses.a when searching for -lncurses
